

Suggested Usage: As a dietary supplement take one tablet daily.

Nicotinamide is a water-soluble amide of nicotinic acid.* It is an essential member of the B-Vitamin family and it does not cause a Niacin flush.* Biophix Maximum Strength Nicotinamide has been formulated to produce a gradual release over a prolonged period of time using a proprietary Micro-Sphere Sustained Release System.

Nicotinamide and Niacin are two different forms of vitamin B-3.
