

Suggested Usage: As a dietary supplement, take 1 softgel every 2 days with a fat-containing meal, or as directed by your healthcare practitioner.

Vitamin D-3 softgels supply this key vitamin in a highly-absorbable liquid softgel form.* Vitamin D is normally obtained from the diet or produced by the skin from the ultraviolet energy of the sun.* However, it is not abundant in food.* As more people avoid sun exposure, Vitamin D supplementation may become more necessary.*

DO NOT EAT FRESHNESS PACKET.
