

Suggested Usage: Take one (1) Veggie Capsule once a week as a dietary supplement.

Vitamin D is normally obtained from the diet or produced by the skin from the ultraviolet energy of the sun. However, obtaining adequate vitamin D-3 from natural food sources and sun exposure alone can be difficult, supplementation with vitamin D may be necessary to obtain a sufficient supply.*

Caution: For adults only. Do not exceed the recommended dose. Consult physician if pregnant/nursing, taking medication (especially topical psoriasis medications or thiazide diuretics), or have a medical condition (especially hypercalcemia, kidney disease, or hyperparathyroidism). Keep out of reach of children.
