6 PROTEIN SOURCES FOR MAXIMUM RESULTS

NATIVE WHEY PROTEIN ProNutri® Isolate is a complete protein gently processed from milk using a cold filtration method. This minimal processing directly from farm fresh milk affords a clean taste, leaving out extra carbs, lactose and fat, while preserving the nutritional benefits of a complete whey protein. With up to 17% more Leucine than traditional whey protein, it has been shown to improve muscle synthesis and recovery.*

4 PLANT-BASED PROTEINS VegiZest® is a balanced plant protein blend of fava, mung bean, pea and rice proteins that offer all the essential amino acids to create a complete protein.*

HYDROLYZED COLLAGEN PROTEIN Collagen is the body's most abundant protein, found in skin, muscles, bone and joints. It helps strengthen skin and hair, and aids digestion. Hydrolyzed bovine collagen offers 90% hydrolyzed collagen proteins.*
