

DIRECT KERATIN PROTEIN

Body Kitchen uses a clinically studied and patented form of direct keratin that is readily bioavailable and easily absorbable. To make this process highly-effective, we've included black pepper extract to improve absorption rate of all nutrients in the formula by **30%**.

FULL-CYCLE KERATIN

We've added **3,000 mcg** of biotin! This combination allows a constant cycle of keratin production – while keratin is ready for quick absorption, biotin engages in a break-down process that stimulates more keratin production in later stages. Backed by minerals such as zinc and copper, Keratin Enrich is an excellent choice for improving nail strength as well.[†]

If you are pregnant, nursing or have a medical condition, consult your physician before use.

Store in a cool, dry place.

Do not use if inner seal is broken or missing.
