

The human body produces **Glucosamine** naturally, and it can be found in the fluid that is around the joints and some other parts of the body.† Our **Glucosamine** supplement is derived from Non-GMO corn rather than shellfish or other animals.†

MSM is an efficient source of sulfur. **CMO**, **Boswellia** and **Turmeric** extracts are included as additional ingredients.†

CMO we use is derived from the kombo-nutmeg rather than the usual beef tallow.
