

HA Chewable Lozenge

Easy. Effective. Great tasting.

The Chewable HA Lozenge makes getting the joint-health benefits of Hyaluronic Acid (HA) easier and tastier than ever before. After all, a nutritional supplement cannot help you unless you take it. With a delicious, natural and sugar-free berry flavor, each HA Chewable Lozenge delivers 60 mg of vegan, high molecular weight HA. It literally melts in your mouth and tastes so good, taking it feels like a treat!

Why Supplement with HA?

Hyaluronic Acid is a remarkable, water-loving molecule naturally found all throughout the human body, acting as a lubricant in our joints and cartilage as well as a hydrating moisturizer in our skin and an important component of healthy eye function. As we age, our body's ability to produce HA can slow. The HA Chewable Lozenge aids in maintaining healthy levels of HA in the body in order to support healthy joint movement, eyes and skin. It's the simplest and sweetest way to promote lasting healthy mobility!
