

Nature's Marine Oil Superfood

Sustainably sourced from fish that are line caught in the pristine waters of the Bering Sea, **Dutch Harbor Omega™** is the most powerful marine oil superfood that has ever been developed. At a state-of-the-art fishery in Alaska—one that has earned certification for sustainability from the Marine Stewardship Council (MSC)—this oil is extracted and expertly crafted. Its unique composition includes a naturally occurring spectrum of omega-3 fatty acids with bioactive pro-resolving mediators (PRMs), which are substances that support healthy immune function, as well as all-natural forms of vitamin A and vitamin D.*

Dutch Harbor Omega™ softgels have a pleasant tasting natural lemon flavor. No synthetic ingredients are added to this product.
