

Ancient Wisdom Through the Lens of Modern Science

Himalayan Tartary buckwheat is a food crop that has been grown for centuries in some of the most challenging climates in the world. Twenty-first century technology is revealing the unique nutrient characteristics of this plant, including an array of phytochemicals that have been shown to have health-promoting effects on immunity, metabolism, and cellular rejuvenation.*

HTB Rejuvenate™ is a proprietary blend of phytochemicals and bioactive molecules that naturally occur in Himalayan Tartary buckwheat, including an exclusive ingredient called 2-hydroxybenzylamine (2-HOBA). 2-HOBA has a special relationship with substances in the body, such as in brain cells, DNA, muscles, enzymes, nerves, and chemical messengers. This product also features calcium salt of β -Hydroxy β -methylbutyric acid (HMB) for muscle support.*

Nutritional uses of 2-HOBA are licensed from MTI Biotech, Inc. to Big Bold Health under U.S. Patent #7,705,054 and #8,822,542.

Directions: Take two capsules daily.

Caution: If pregnant, nursing, or taking medications, consult with your healthcare practitioner before use. Keep out of the reach of children.

This product is non-GMO, gluten-free, and vegetarian.

Tamper Evident: Do not use if safety seal is missing or broken.

Storage: Keep tightly closed in a cool, dry place.
