70% Better Than Regular Whey*

Based on Leading University Research

THE SIX STAR® 100% WHEY PROTEIN PLUS ADVANTAGE

In a 6-week, double-blind study involving 36 test subjects with at least 3 years of weight training experience divided into 3 groups, subjects containing the core ingredients in Six Star® 100% Whey Protein Plus with a weight training program gained 70% more lean muscle mass than subjects using regular whey protein (8.8 vs. 5.1 lbs.) and increased their bench press more than subjects using regular whey protein (34 vs. 28 lbs.). These same subjects even gained 4 times the lean muscle as subjects using a placebo (8.8 vs. 2.8 lbs.). This formula provides 32g of protein from ultra-pure protein sources. Plus, it delivers creatine, leucine, isoleucine, valine and glutamine.*
