

Probioplex® Intensive Care is an innovative formula produced by a temperature/pH controlled micro-filtration process that yields biologically active immunoglobulins. These immunoglobulins support healthy intestinal immune activity. In addition, Probioplex Intensive Care supplies lactoferrin and lactoperoxidase, proteins that support intestinal health and friendly bacteria such as lactobacilli and bifidobacteria.♦

♦**These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**

DIRECTIONS: Take about one tablespoon (5 grams) mixed in unchilled water one to two times daily between meals, or as directed by your health-care practitioner.

CAUTION: Keep out of the reach of children.

STORAGE: Keep tightly closed in a cool, dry place.

Formulated to Exclude: Wheat, gluten, nuts, tree nuts, fish, crustacean shellfish, colors, artificial sweeteners, and preservatives.

This product is sold by weight, not volume. Settling may occur during shipping and handling.
