DIRECTIONS FOR USE:

See insert for detailed instructions

SHAKE WELL

Shake well for
10 seconds before
each use.

To dispense, tilt the
bottle to slowly form
a drop. The mark
indicating the air vent
in the dropper must
be facing up for
easier dosing.

5x

Drops can be given on
breast, mixed with
breastmilk or formula
or by spoon.
Use 5 drops daily.

Not intended for use in premature
infants. If your child has immune
problems, consult your healthcare
provider prior to use.

Storage: Store in a cool, dry place
away from direct sunlight. Avoid
freezing.

KEEP OUT OF REACH OF CHILDREN.

Comfort from the inside.

You do your best to give your little one
everything they need, but approximately 30%
of babies meet the recommended intake of
Vitamin D daily.* The first few months is also
when a baby is vulnerable to common
digestive issues such as colic & spit-up.

With just 5 drops once daily, Gerber® Good
Start® Soothe Vitamin D & Probiotic Drops
provide 400 IU of Vitamin D — an essential
vitamin that helps your baby absorb calcium
for healthy bone development.* Gerber®
Good Start® Soothe Vitamin D & Probiotic
Drops also has the unique *Lactobacillus reuteri*
(DSM 17938) that naturally promotes
growth of good bacteria in your baby's gut.
It is the only probiotic shown to be
effective in reducing spit-ups and the
chance of developing colic.*
