

Zinc A.G.™ features zinc as a true amino acid chelate with arginine and glycine designed to be highly absorbable and well tolerated. Zinc is especially important for immune support and tissue synthesis. In addition, zinc is a component of numerous enzymes in the body related to energy metabolism, bone mineralization, and protein synthesis—and plays a role in male reproductive health.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

DIRECTIONS: Take one tablet one to two times daily or as directed by your healthcare practitioner.

CAUTION: Keep out of the reach of children.

STORAGE: Keep tightly closed in a cool, dry place.
