

Looking for the best fish oil supplement? The quality of any fish oil product can be judged by the levels of contaminants, such as PCBs, found in the oil.

Any company that states their fish oil is free of PCBs is simply not honest. OmegaRx has a lower level of PCBs than prescription fish oil but at a fraction of the cost.

Benefits of OmegaRx:

- Reduces cellular inflammation.
- Supports mental acuity and long-term cognitive health.
- Enhances joint dexterity, reduces joint aches and pains.
- Helps maintain a healthy heart.
