

## Caprylic Acid SR

### Description:

KAL® Caprylic Acid is a sustained release formula designed to release active ingredients in the gastrointestinal tract. Caprylic Acid is a straight chain fatty acid. Sustained Release technology allows Caprylic Acid to reach the cell wall membranes where the body will absorb what it needs for optimal nutritive support. KAL® Caprylic Acid is an established combination of Calcium, Magnesium and Zinc Caprylates free of resin and sodium for optimal nutritive support.
