

Organ Therapy™ combines ancient wisdom with modern science. Our ancestors prized organ meats as one of nature's most powerful superfoods. They understood that consuming organ meats like liver, heart, kidney and bone marrow supports energy levels, immune function, and overall health and vitality.* They also understood the importance of getting nutrients from healthy animals. That's why we use only grass-fed, hormone-free sources of beef organs and bone stock. With Organ Therapy™, you can confidently give your body the primal nutrition it craves.*

SaltWrap™ is dedicated to creating natural, holistic recovery and performance solutions for athletes, competitors, and performers. For more information, visit www.saltwrap.com.
