

THE ULTIMATE WHEY PROTEIN + MUSCLE BUILDING FORMULA

For 25 years, our groundbreaking formula has taken on all challengers — and is still recognized as one of the most powerful proteins ever developed. Whey + Muscle Builder is our best-in-class, scientifically engineered whey protein formula, enhanced with the most studied form of creatine for more lean muscle, more strength, and better performance. This is the proof that we relentlessly push the limits of science and research every day. Looking to take it to the next level? No matter what you do, Whey + Muscle Builder will help you get there.*

GO BEYOND THE NORM — 70% BETTER THAN REGULAR WHEY

Whey + Muscle Builder is the culmination of decades spent obsessing over formulations, acquiring patents, and funding research — and the work's paid off. In a 6-week, double-blind study, subjects using the key ingredients in Whey + Muscle Builder, with at least 3 years of weight training experience, gained 70% more lean muscle than those using regular whey protein (8.8 vs. 5.1 lbs.), and their bench press increased more than subjects using regular whey protein (34 vs. 14 lbs.). More lean muscle and strength means you get to that next level.*

POWERFUL PROTEIN THAT DELIVERS

A single scoop of Whey + Muscle Builder contains 30g of premium whey protein — one of the fastest-acting proteins available. It's filtered using Multi-Phase Filtration Technology to remove unwanted carbs and fat. After all, what's inside counts.

FLAVOR SATISFACTION GUARANTEED

The MuscleTech® brand has partnered with the world's top flavor houses to deliver a delightful taste experience in every scoop of Whey + Muscle Builder. So, when your goals are so close that you can taste 'em, drink up. You're guaranteed to love it.
