

Bottle made from 100% post consumer recycled material.

We are committed to you and our planet. Scan to learn more.

Recommended Use: Take 1 capsule with a meal three to four times daily.

Environmentally Friendly

Nature's Sea Calcium is derived from Lithothamnium, a hard, brittle red algae that grows off the southwestern coast of Ireland. As it grows, the algae incorporates naturally-occurring calcium into its organic structure.

Lithothamnium provides a renewable source as the living algae is left undisturbed.

Do not use if inner seal is missing or damaged.
