TRIPLE LEAF TEA'S ANCIENT CHINESE MEDICINALS

Traditional Chinese medicine began in approximately 2500 B.C. Recently, here in the West, people have discovered the value of this ancient system which focuses on aiding the body's own healing mechanisms through restoring harmony and balance.* The Chinese system of herbology has been recorded in ancient texts which are studied and employed even today.* This time-tested knowledge has been passed on from generation to generation over the centuries.*

Triple Leaf Tea comes from such a tradition.* It is made in the U.S.A. by a Chinese American family-owned business. The company owner can remember stories of his own grandfather selling herbs and teas in his village in China. Today, these traditional Chinese herbal formulas are available to you.* We wish you harmony and balance!*

THE COLD & FLU TIME HERBAL TEA TRADITION

This comforting and delicious traditional Chinese herbal tea helps the body to naturally maintain balance, without the use of ephedra or ma huang.* The herbs in this tea have a long history of traditional use to help support the healthy function of the respiratory system.* Mulberry and imperata (cogongrass) were used to help support healthy nasal and sinus function and healthy breathing, and to help support healthy lung function.* Honeysuckle, kudzu (pueraria), siler, isatis and Chinese mint were used to help support throat health.* Honeysuckle, dandelion, lophatherum, uncaria and licorice root are considered cooling and were used to help promote normal detoxification.* Ginger and Abrus fruticosus were used to help support healthy stomach and digestive system function.* Astragalus was used to help maintain the healthy function of the immune system and to help promote healthy resistance.*

SUGGESTED USE: For best results, start drinking at the first sign of discomfort, and continue as needed.* (See dosage and brewing instructions on flap.†) Children 6-12 years, drink 1/2 cup, maximum 2 cups per day.* For additional support to help maintain a healthy immune system, drink Triple Leaf green or decaf green teas.* Also enjoy Triple Leaf Ginger Tea during the change of seasons.*
