DIRECTIONS: Briskly stir one scoop (10 g) into at least 8 oz of chilled water and consume twice daily, or as directed by your healthcare practitioner.

Children and pregnant or lactating women should consult their healthcare practitioner prior to use. Do not use if tamper seal is damaged.

GI Protect™ features XYMOGEN's **IgG 2000 DF™**, with the added benefit of the amino acid L-glutamine. IgG 2000 DF represents a breakthrough in immunoglobulin supplementation. It is a highly concentrated, non-dairy source of serum-derived immunoglobulin antibodies and immunoproteins. It possesses three times more immunoglobulin G (IgG) and total immunoglobulins than colostrum and has twice as much cysteine, an important amino acid for maintaining glutathione levels. Compared to colostrum alone, IgG 2000 DF delivers 15 times the level of transferrin and lactoferrin. These and other immunoproteins contained in IgG 2000 DF have demonstrated an ability to enhance immune function by directly boosting immunoglobulin levels in the gastrointestinal tract.*

One daily dose of **GI Protect** provides over 2 g of IgG as well as 1 g of L-glutamine, which is added to support intestinal mucosal barrier integrity. **GI Protect** is naturally flavored and tastes great, making it easy to consume.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

STORAGE: Keep tightly closed in a cool, dry place out of reach of children.

DOES NOT CONTAIN: Wheat, gluten, yeast, soy, dairy products, fish, shellfish, peanuts, tree nuts, egg, artificial colors, or artificial sweeteners.
