

Muscle protein synthesis is what everyone is after, and protein synthesis demands the essential amino acids that your body doesn't produce on its own. Muscle protein synthesis is unlocked when you have all 9 essential amino acids. That's why the PhD-accredited scientists on the BSN® research team dialed up AMINOx® EAAs with a 10 gram serving of ALL 9 EAAs, giving your muscles even more of what they need. The result is a precision engineered formula for muscle protein synthesis, recovery and endurance*—all with zero caffeine, and zero sugar. Plus, AMINOx® EAAs is available in a variety of exciting flavors. When your goals are performance and recovery, go with AMINOx® EAAs*.

May help spare muscle during prolonged or endurance exercise
