

DIRECTIONS: Take one tablespoon (5 g) mixed in 2-4 oz. of unchilled water daily, or as directed by your healthcare practitioner.

Children and pregnant or lactating women should consult their healthcare practitioner prior to use. Do not use if tamper seal is damaged.

IgG 2000 DF™ represents a breakthrough in immunoglobulin supplementation. It is a highly concentrated, non-dairy source of serum-derived immunoglobulin antibodies and immunoproteins. It possesses three times more immunoglobulin G (IgG) and total immunoglobulins than colostrum and has twice as much cysteine, an important amino acid for maintaining glutathione levels. Compared to colostrum alone, IgG 2000 DF delivers 15 times the level of transferrin and lactoferrin.*

(Note: 1 Tbsp IgG 2000 DF = 8 IgG 2000 DF capsules)
