Cultured Cordyceps is grown in a wild simulated environment using culture from Tibetan Wild Cordyceps. Rare, potent and balanced, almost as precious as gold, Wild Cordyceps is a revered superstar tonic herb. It tonifies both the *Kidney* and the *Lungs* and supports sexual functions, brain power, structural integrity, immunity and athletic performance. Its cultured reincarnation is now affordable by all.

Only the fruiting body, not the mycelium, is used in our extract, ensuring potency and purity.
