Cultured Cordyceps is grown in a wild simulated environment using culture from Tibetan Wild Cordyceps. Rare, potent and balanced, almost as precious as gold, Wild Cordyceps is a revered superstar tonic herb. It tonifies both the *Kidney* and the *Lungs* and supports sexual functions, brain power, structural integrity, immunity and athletic performance. Its cultured reincarnation is now affordable by all.*

Only the fruiting body, not the mycelium, is used in our extract, ensuring potency and purity.
