Excellent Lung tonic. It is also called "monk fruit" and has a delicious sweet flavor. The sweetness is due to a glucoside known as *mogroside*. May be added to any tea to add a wonderfully sweet, slightly fruity flavor.*

Flavor — Ripe fruity sweetness that stretches along the taste buds and settles with a touch of earthy character.

Directions: Add the amount of botanicals per a recipe, as desired, or as directed by a health practitioner. The proper way of extracting botanicals depends on parts used. Flowers, fruits and leaves can usually be *steeped* or *decocted* (boiling over fire) while stems, barks and roots typically require *decocting*.

In a *Desktop Botanical Garden™ Glass Tea & Elixir Maker*, add 1 part botanical(s) and 5-8 parts water, steep or decoct for 5-20 minutes. You can boil water directly in the *Elixir Maker*. Repeat this process for 2nd or 3rd extraction until all active constituents have been extracted.
