Gynostemma is often referred to as "Ginseng at Tea Price" because it contains over 100 saponins (Gyenosides) that are very similar to Ginseng saponins (Ginseng's active ingredients). Gynostemma is a quintessential adaptogenic herb. Prolonged consumption of Gynostemma strengthens the adaptive capacity of the person at every level of their life. Gynostemma has a double-direction regulating effect/activity in many areas.*
