

UltraBalance® Protein is a high quality, easy-to-digest protein supplement composed of whey protein (isolate and hydrolysate) and low-allergy-potential rice protein. The whey protein consists of easy-to-absorb forms of amino acids (di- and tri-peptides) along with a comprehensive spectrum of essential vitamins and minerals to support protein utilization and nitrogen retention. This unique formula provides excellent nutritional support as part of a protein-supplemented dietary program.
