## Pearl Powder

Dragon Herbs Pearl Powder is made from 100% pure freshwater pearls. Our pearl powder is produced in a modern facility using an ancient technique known as *levigation*, where the pearls are porcelain-ground in purified water for 24 hours. As a result of this process, each pearl particle measures just 1.3 microns in diameter. All of pearl's active constituents are preserved in the process and they are made totally bio-available for maximum bio-absorption and effect.

**Ingredients:** 100% pure water levigated freshwater pearls

**Usage:** Add one teaspoon per day to your daily smoothy blend or beverage of choice.
