Natural color variations may occur in this product.

Store in a cool, dry place after opening. Please Recycle.

SUGGESTED USAGE: As a dietary supplement, take 1 capsule daily, preferably with a meal.

Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

Vitamin C is a water soluble nutrient well known for its vital role in the immune system. Vitamin C is also necessary for the production of collagen (a structural protein in connective tissue) and is therefore important for skin, bone and joint health. Vitamin C is needed for amino acid metabolism, hormone synthesis and the utilization of many nutrients, such as folic acid and iron. It is also a highly effective antioxidant that can protect the body's cells and molecules from damage by free radicals and reactive oxygen molecules generated during normal metabolism and exposure to environmental stressors. This product includes Bioflavonoids, which work synergistically to support Vitamin C utilization.*
