

SUGGESTED USE: As a dietary supplement, take one (1) capsule daily, or as directed by a healthcare professional.

THERAPEUTIC USE: Consult your Physician.

Prescribed Choice Grape Seed Extract contains 95% Oligomeric Proanthocyanidin B 2-3-O-gallate, an Oligomeric Procyanidin which is more potent antioxidant than those from pine bark. Pycnogenols is a generic chemical term used to distinguish the polyphenolic class of bioflavonoids which contain Flavin-3-ols from the simpler bioflavonoids. These Pycnogenols are also called Oligomeric Procyanidins. Both of these terms refer to the condensed structure of the Flavonol molecule. Prescribed Choice Grape Seed Extract, through a low temperature extraction method, is completely water soluble and free of dangerous solvents and food coloring additives. Water solubility means optimum bioavailability.

PRESCRIBED CHOICE

Professional Nutraceutical Formulations

EXTRACT 120:1

Grape Seed 400 mg

Extra Strength

30 Vegetarian Capsules / Dietary Supplement

Supplement Facts

Serving Size: One (1) Capsule
