

Directions: As a dietary supplement, add one scoop (4.5 grams) daily to 8 fl oz of water, juice (apple, orange or tomato) or your favorite smoothie and mix or shake until smooth. For best results, liquid should be very cold. Mixes instantly without the use of a blender.

Bluebonnet's Super Earth® Organic WheatGrass Powder provides 100% organic certified and non-GMO verified wheatgrass with no added sweeteners, flavors or colors. It is also gluten-free because it was cut before the grain formed.

Wheatgrass is one of the most nutrient-dense foods in the world. It contains chlorophyll, which helps transport these nutrients throughout the body thus providing its rejuvenating and energizing properties. Plus, chlorophyll contains enzymes and superoxide dismutase (SOD), the master cellular defense enzyme, along with other potent antioxidants to combat the destructive oxygen free radicals responsible for the aging process. Wheatgrass is also composed of essential vitamins, minerals, enzymes and protein, which contribute significantly to its energy and life-giving qualities. ♦

Bluebonnet's Super Earth® Organic WheatGrass Powder is cultivated without chemical fertilizers or pesticides since it is 100% organically grown, sustainably harvested at its nutritional peak, cautiously dried at low temperatures and meticulously milled into a fine powder. This fastidious farm-to-table process is important because it preserves the inherent chlorophyll, trace minerals and phytonutrients responsible for the energy-revitalizing and free-radical scavenging properties of wheatgrass. The fact that Bluebonnet's Super Earth® Organic WheatGrass has been carefully cultivated as though you grew, cut and milled it yourself is why it is the perfect addition to any healthy diet. Plus, it provides the opportunity to meet the recommended five servings per day of fruits and vegetables in just one naturally delicious scoop. ♦

Bluebonnet's Super Earth® Organic WheatGrass Powder delivers crucial vitamins, minerals, protein, enzymes and other powerful phytonutrients to:

- Revitalize and Reinvigorate the Body ♦
- Promote Natural Energy ♦
- Provide Potent Antioxidant Support ♦
- Balance Body Alkalinity/pH ♦

Available in naturally delicious, easy-to-mix powder for maximum assimilation and absorption.
