

DIRECTIONS: Take one to two capsules one to two times daily, or as directed by your healthcare practitioner.

Children and pregnant or lactating women should consult their healthcare practitioner prior to use. Do not use if tamper seal is damaged.

S-Acetyl Glutathione is a patent-pending, acetylated form of glutathione. This form is well-absorbed and more stable throughout the digestive tract than other forms on the market. Use of stomach acid-resistant capsules (DRcaps™) further protect stability. Laboratory data showed that S-acetyl glutathione increased intracellular glutathione and had a positive effect on many oxidative stress biomarkers.*
