Thyroid Care™ provides superior nutritional support for healthy thyroid and immune function. Optimal levels of iodine benefit the thyroid gland and enhance metabolism. L-Tyrosine plays an important role in the production of thyroid hormones. L-Tyrosine is an important amino acid which is absolutely necessary for the body to produce thyroid (as well as noradrenaline and dopamine) hormones. It is impossible to have a well functioning thyroid without sufficient quantities of tyrosine combined with iodine, either in the diet, or through supplementation.*

Recommendations: 2 capsules daily, may increase up to 4 capsules daily, or as recommended by your healthcare practitioner. If pregnant or nursing, consult a healthcare practitioner before using.

Do not use if full-bottle shrink wrap is broken or missing. Store in a cool, dry place (59°F-85°F) away from direct light.

*THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.
