

Suggested usage: PGX® softgels can be taken with or without food with a glass of water (8–16 oz or 1–2 cups) or as directed by a health professional.

Week 1: 1 softgel, 3 times daily.

Week 2: 2 softgels, 3 times daily.

Week 3 and beyond: 3 softgels, 3–4 times daily.

Cautions: As with any supplement, consult your health professional before use if you are pregnant, breastfeeding, or trying to conceive, or if you are taking medication, have a medical condition, or anticipate a surgery. Keep out of the reach of children.

The combination of PGX® and mulberry extract in these Ultra Matrix softgels helps lower the glycemic index of your meals, slow glucose absorption and promote healthy blood sugar levels already in normal range.* The Ultra Matrix technology involves suspending PGX® in a rich coconut oil matrix, which allows PGX® to disperse quickly when it reaches stomach acid. Incorporating PGX® into your daily diet will promote satiety and support normal appetite and metabolism.*

Notice: A small percentage of people may experience minor digestive changes such as gas, bloating, constipation, or diarrhea when starting to take PGX®. Following the dosage guidelines listed under suggested usage will help to minimize these occurrences. It is important to drink adequate amounts of water (8–16 oz. or 1–2 cups) when taking PGX®. If you are taking medication, take it one hour prior to or two hours after taking PGX®.

Manufactured by Natural Factors to ensure safety and potency in accordance with Good Manufacturing Practices (GMP) of the FDA and Health Canada.

Contains no artificial preservatives or sweeteners; no dairy, starch, sugar, wheat, gluten, yeast, soy, corn, egg, fish, shellfish, or GMOs. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.
