

Coleus forskohlii is an herb grown in Nepal, Thailand and India. A member of the mint family, it has traditionally been used in Asian medicine for skin, lung and heart conditions.* Forskolin works on muscles in the heart and in the walls of the blood vessels to support normal heart rate and relaxation of the arteries for better blood circulation.* In addition, Forskolin is known to support healthy weight management as it may stimulate lipolysis (breaking down of fats) in fat cells, promote healthy metabolism and appetite suppression.*

SUGGESTED USE: As a dietary supplement, adults take two (2) capsules daily. For best results take 20-30 minutes before meals with water or as directed by a health care professional.

CAUTION: Do not exceed recommended dose. Pregnant or nursing women, children under the age of 18, and individuals with a known medical condition, including heart disease and blood pressure disorders, should consult a physician before using this or any dietary supplement.
