

Pygeum (*Pygeum africanum*) is an all-natural tropical evergreen herb containing numerous constituents beneficial for men's health. Pygeum bark contains phytosterols such as beta-sitosterols, which exhibit anti-inflammatory action by inhibiting the production of prostaglandins in the prostate, supporting prostate health.* Other Pygeum components may also support sexual and urinary health.*

SUGGESTED USE: As a dietary supplement, adults take one (1) capsule twice daily, preferably with meals or as directed by a health care professional.

CAUTION: If you are taking any medications, planning any medical procedure or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.
