

Quercetin and Bromelain work well together. Bromelain helps assist in increasing your body's absorption and utilization of Quercetin.™ That is why Herbal Secrets combines the benefits of Quercetin and Bromelain into one supplement! Quercetin is found naturally in apple skins, onions and red wine, and Bromelain is isolated from pineapples. Quercetin works on an antioxidant level to help reduce the damage and irritation caused by free radicals and may help suppress histamine response. Bromelain works on an enzyme and protein level to help limit the actions of metabolites and neutrophils on inflammation.*

CAUTION: Do not exceed recommended dose. If you are pregnant, nursing, taking any medications or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Not intended for use by persons under the age of 18.
