

Herbal Secrets Grapeseed Extract is derived from the ground-up seeds of grapes. Grapeseed Extract is rich in resveratrol and unique antioxidants.* These antioxidants may help to strengthen the immune system, increase intracellular vitamin C levels to strengthen capillaries, protect the blood vessels walls from inflammatory stress, help to maintain existing healthy blood pressure levels and improve blood oxygen circulation throughout the body.* When taken regularly, Grapeseed Extract may help to protect soft tissue collagen in the joints and skin from free radical damage.*

WARNING: If you are pregnant, nursing, taking any medications or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Not intended for use by persons under the age of 18.
