Our **Natural Rest** is a 4 part vitamin-mineral-amino acid-herbal combination to encourage natural, restful sleep. Two B vitamins play key roles in the production of adrenal hormones and essential neurotransmitters that regulate sleep patterns.[†] Magnesium aids in calming the nerves and relaxing the muscles, which in turn can help individuals fall asleep.[†] GABA is an amino acid that calms an over-excited brain, and L-Theanine, also an amino acid, stimulates the brain's production of relaxing alpha waves.[†] Lastly, four traditional herbs are included — chamomile, passion flower, hops, and lemon balm — long used to reduce anxiety and aid sleep.[†]
