

DIRECTIONS: Consume the contents of one packet with a meal, one to two times daily, or as directed by your healthcare practitioner.

Children and pregnant or lactating women should consult their healthcare practitioner prior to use. Consider total vitamin K intake (food + supplements) if you are taking blood-thinning medication. Present studies show that 45 mcg of MK-7 from VitarekTM daily is not likely to interfere with blood-thinning medicines. Do not use if tamper seal is damaged.

OSAp^{lex} MK-7TM is a comprehensive, convenient, and cost-effective dietary supplement that supports healthy bones, cartilage, and ligaments. Each packet provides the following: two capsules containing a combination of microcrystalline hydroxyapatite concentrate (MCHC) from Osseopan 1100TM, vitamin D3, and vitamin K2 along with one capsule of choline-stabilized orthosilicic acid (ch-OSA[®]).^{*}

Bone is composed of a calcium-based mineral complex and an organic material known as collagen. A somewhat flexible and fibrous protein, collagen appears to be a key factor in a bone's ability to withstand sudden impact. The quantity and health of collagen determines the bone's "toughness," while the mineral content determines its strength and stiffness.[†]

OSAp^{lex} MK-7 contains choline-stabilized orthosilicic acid, a well-absorbed form of silicon that has been clinically tested. Silicon-dependent enzymes link together single chains of amino acids to synthesize collagen fibers. The surfaces of these collagen fibers act as the binding sites for the MCHC. The more surface area available to the MCHC to bind to, the more flexible the bone.[†]

MCHC, a proprietary, standardized, and safe-source bone extract from New Zealand bovine, contains a crystalline calcium and phosphorus matrix in the ideal physiological ratio of 2:1, plus bioactive growth factors and type I collagen. As a source of calcium, MCHC contributes to the production and maintenance of bone structure, a function supported by vitamins D3 and K2. Amino acids, glycosaminoglycans, and a broad range of essential trace elements are also present.[†]

Combine ch-OSA and MCHC with significant levels of vitamins D3 and K2, and the result is a unique package that addresses quantity and quality of bone, and supports overall bone strength and health.[†]

^{*}These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

STORAGE: Keep closed in a cool, dry place out of reach of children.

DOES NOT CONTAIN: Wheat, gluten, corn protein, yeast, soy protein, dairy products, fish, shellfish, peanuts, tree nuts, egg, artificial colors, artificial sweeteners, or preservatives.

60 Packets

Supplement Facts

Serving Size: 1 Packet
Servings Per Container: 60

	(2) Osseopan 1100 TM with vitamins D3 and K2 Capsules Amount %DV	(1) ch-OSA [®] Capsule Amount %DV
Vitamin D3 (as cholecalciferol)	1000 IU 200%	
Vitamin K2 (as menaquinone-7)	45 mcg 90%	
Calcium (as MCHC [†])	550 mg 55%	
Phosphorus (as MCHC [†])	198 mg 39%	
MCHC [†]	2.2 g **	
Microcrystalline Hydroxyapatite (as MCHC [†])	1.32 g **	
Choline (as choline-stabilized orthosilicic acid [†])		60 mg **
Silicon (as choline-stabilized orthosilicic acid [†])		3 mg **

^{**} Daily Value (DV) not established.

Other Ingredients for Osseopan 1100 with vitamins D3 and K2 capsule: HPMC (capsule), vegetable stearic acid, vegetable magnesium stearate, silica, and medium-chain triglycerides.

Other Ingredients for ch-OSA capsule: Microcrystalline cellulose, HPMC (capsule), and purified water.

† Microcrystalline Hydroxyapatite Concentrate
