

Suggested Usage: Take 1 softgel daily with a fat-containing meal.

Lutein and Zeaxanthin are free radical scavenging carotenoid pigments often found together in vegetables.* In the body, they are deposited in the macula, a specialized area of the eye that is responsible for central vision.* Acting as primary filters of high-energy blue light, Lutein and Zeaxanthin help to promote normal visual health by protecting the eye against oxidative stress.* This product is formulated to support normal recovery from bright light exposure and the maintenance of healthy contrast sensitivity.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.

Do Not Eat Freshness Packet. Keep in Bottle.
