

TRUELIFE PB™ - PROMOTES HEALTHY INTESTINAL FUNCTION

TrueLife PB™ is a blend of live probiotic cells and prebiotic ingredients. Every vegetarian capsule is made with at least 30 billion live cells from 6 different probiotic strains. Plus, you get additional support from two potent natural prebiotics, fructo-oligosaccharides (FOS) from inulin and ACTAZIN®, a premium New Zealand green Kiwifruit ingredient.†

Each TrueLife PB™ capsule is carefully manufactured to ensure the live cells are still active when you use the product. TrueLife PB™ capsules are individually sealed using a “nitrogen flush” process and double foil packaging. This helps protect the probiotics from moisture, light, and air which can destroy the live cells before you use the product. TrueLife PB™ uses special veggie DRcaps®, a delayed release capsule that helps protect the probiotics from stomach acid.†

Made with

ACTAZIN®

DRcaps®

ACTAZIN® is a registered trademark of Anagenix Ltd.
DRcaps® is a trademark of Lonza or its affiliates.

Suggested Use: Take one (1) capsule per day. For additional support, take one (1) capsule two (2) times daily, at separate times of day or as recommended by your healthcare practitioner.

- Keep out of reach of children
- Do not use if seal is broken or missing
- Store in a cool dry place
