

DIRECTIONS FOR USE

Adults: Take 6 capsules daily.

Either take 6 capsules first thing in the morning or split into 2 doses, in the morning and later in the day.

**Xtend-Life Organ Ultra** is a natural product containing liver, kidney, heart, pancreas, and thymus. It is sourced from the finest producers of 100% grass-fed New Zealand sheep, which have been raised in their most natural environment, under strict regulations. To ensure optimal health benefits, the organs are freeze dried to lock in maximum nutritional content.

Organ meats are incredibly nutrient-dense foods. Current diets are often deficient in nutrients such as vitamin B12, CoQ10, iron, selenium and folate – the same nutrients that our ancestors harvested from the landscape and consumed routinely in the form of organ meat. They have also been a key element in traditional remedies for thousands of years and have become a part of folklore.

Organ meats are not readily available in the modern world, which is why Xtend-Life created Organ Ultra; to provide all of the benefits of this traditional superfood in a simple, convenient form\*.

Store in a cool, dry place.
