***This statement has not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.**

NOW® Calcium Pyruvate is a natural combination of two important nutrients - Calcium and Pyruvic Acid. This combination produces a stable compound called pyruvate salt that is more easily absorbed than calcium alone. Calcium Pyruvate also plays a crucial role in energy production by facilitating the transport of glucose from the bloodstream into the muscles, making this a popular supplement with fitness enthusiasts and body builders.* Look for other NOW® sports supplements in health food stores nationwide.

SUGGESTED USAGE: As a dietary supplement, take 2 tablets 1-3 times daily, preferably with meals. We recommend using this product with a rigorous diet and exercise program for best results.

Pyruvate 1000 mg
