SUGGESTED USE:
Mix 1 sachet with 4 oz (115 mL) of cold water, juice, or other beverage and drink one time daily or as recommended by your health-care practitioner. For best results mix by shaking with ice and drink within 30 minutes of mixing. To maximize absorption consume approximately 1 hour before or after food, and 2 hours before or after taking any drugs or other dietary supplements.

If pregnant, consult your health-care practitioner before using this product.
Keep out of reach of children. Store in a cool, dry place.

WARNING:
Do not take this product if you have had an organ or tissue transplant and you are taking immunosuppressive drugs to prevent the rejection of transplanted organs or tissues (e.g., bone marrow, kidney, liver, heart, etc.). If you received your own tissue, such as autologous blood donation, you can take NutraQOL™.
