

FYI® ULTRA is the ultimate joint and cartilage formula, containing a broad spectrum of nutrients to support joint and connective tissue health.[†] This multi-faceted formula provides clinically studied amounts of glucosamine, from a natural, shell-fish free source, along with a range of carefully selected natural antioxidants that assist the body's normal response to everyday wear and tear.[†] Curcumin in turmeric supports normal joint and surrounding tissue volume and promotes healthy joint mobility by optimizing the level of enzymes that normally participate in protective tissue response.[†] Pomegranate, Poten-Zyme[®] selenium, *Boswellia serrata* and natural astaxanthin provide antioxidant support to help scavenge free radicals in the joint and cartilage tissue.[†]

The **FYI® ULTRA** nutrients are delivered through our proprietary UltraZorbe[™] capsules to provide faster and more complete dissolution than other vegetarian capsules, and are protected from the damaging effects of oxygen and moisture by our proprietary BioProtect[®] packaging system.
