

Goatein[®] is a unique protein powder made from goat's milk. As an animal protein, **Goatein**[®] is an excellent source of complete protein containing all eight essential amino acids. Since goat's milk protein molecules are structured differently than cow's milk protein molecules, **Goatein**[®] is easy to digest and can be tolerated by many people who cannot digest cow's milk. **Goatein**[®] goats are not fed pesticides, herbicides, growth hormones or antibiotics.
