

"The quality, therapeutic concentration, and affordability of a nutritional product can, and often does, mean the difference between lethargy and energy, sickness and health, and, quite literally, life and death. I don't want anyone to be tired, sick or dead because they could not obtain or afford the best possible product. If someone does not feel this same way, they should not be in the nutritional product business. I live and breathe this philosophy in both my personal and professional life and constantly strive to evolve HealthForce products and offer them at the best possible values - with a reverence for all life. I would rather die than compromise these values!" - *Jameth Sheridan (Naturopath & Herbal Medicine Researcher)*

Green foods are perhaps the most healing foods on the planet, and the single most important addition to a diet you can make. They are foundational. For over 20 years, I have deeply and passionately immersed myself full time into providing the best possible foundation. My deepest passion is for the Earth and all of its inhabitants to be healed on a core level. Mother Nature gave us the substances we need for healing. It is my life path duty and my great honor to assemble them for you. Compromise is not an option. Hypo is nothing. Substance is everything. Vitamineral™ Green is the best possible green food that I can offer. Every ingredient, including how it is grown and processed, is therapeutic. It is an extremely potent & comprehensive array of nature's most nutritive and cleansing superfoods, grown and processed to maximize their benefits. Contains a full spectrum of naturally occurring,

absorbable and non-toxic vitamins, minerals, all of the essential amino acids (protein), antioxidants, chlorophyll, soluble and insoluble fibers, tens of thousands of phytonutrients, and a plethora of other synergistically bound, organic nutrients. Contains no synthetic or isolated nutrients (not excreted as expensive yellow urine or stored as toxic deposits). Vitamineral™ Green is Actual Food™. Health is important, and too many things usually get in the way of people actually taking an authentically powerful product. Loyalties can be divided. I want to make it clear where mine lie. My loyalty is to those who want to thrive, and those whose life situation requires them to thrive. My loyalty is to the end user. My loyalty... is to you. And in my life now and one day, when I look back upon my life, that has and will still have value to me, incomparable to any amount of money, investment, or time. - *Jameth Sheridan*

100% TruGanic™ Since the USDA now owns Organic, pesticides and other poisons are allowed on and in Organic products under many circumstances! ...and pure foods like probiotics, enzymes, zeolins, charcoal, burtonite, wildcrafted herbs and many superfoods are NOT considered organic, even if grown organically and 100% verified free of pesticides, GMO, and irradiation. TruGanic™, on the other hand, is NOT for sale to anyone at any price! It is a purist, hard-core quality standard significantly beyond Organic standards, with much more stringent criteria and actual verification via testing that Organic does not have.
