

Adequate magnesium intake is needed to support the contraction and relaxation of muscles and helps with leg cramps.* Leg cramps can occur occasionally among adults with inadequate intake.* According to the National Institutes of Health, magnesium intake by most American adults is lower than recommended.

WARNING: If you are pregnant, nursing, taking any medications, including blood thinners, or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Not intended for use by persons under the age of 18. Keep out of reach of children. Store at room temperature. Do not use if seal under cap is broken or missing.

Helps with Leg Cramps & Muscle Function*
Individual Results May Vary.
