

CardiO-3® is a premium Omega-3 supplement utilizing supercritical CO₂ extraction technology that delivers 900mg of Omega-3 nutrition in a convenient, once daily serving. **CardiO-3®** offers a clean, orange flavor with no fishy aftertaste, supports cardiovascular health and helps maintain cholesterol and triglyceride levels already in the normal range.[†]

Cold processed. Smart choice.

Supercritical CO₂ extraction utilizes 400% less heat than the leading brands—the typical process can expose heat-sensitive oils to temperatures as high as 400° F. Liquid CO₂, an organic compound, takes the place of typically-used harsh chemical solvents.

Minami also offers one of the highest concentrated Omega-3 fish oils on the market, which means more Omega-3 nutrition, no fillers and fewer softgels to take—now that is smart.
